

My name is Greg Doyle and I started Greg's Garage in 1991 by providing quality service and repair. One thing I noticed is when vehicles came back after repairs I would make that a top priority since the customer already paid! I also keep up with equipment and technology, treating my employee's right and giving back to our community. I learned to ski at Sky Tavern, my kids and now grandkids, with that I thought my years of business experience and relationships could benefit the program. My friends volunteer each season and benefit by helping kids grow in confidence and ability. I hope to provide support in buildings, lights, snowmaking, mountain biking and bring back the UNR Ski Team!
